LOVING THIS ! 11\/10!. does not look like the pictures showin here after i installed it

this program does not uninstall very clean it leaves traces that you have to delete manully

. Works perfectly! 10\/10. It is excellent software that makes Windows launcher mac osx\/iOS style.
If you like mac osx\/iOS style, you may choose this.

P.S.
I should to say thank you
Thank you very much, Apple pal Dev
I love iOS, I wanted for such software. If you're using 4K monitor\/resolution, they will look pixelated so much and if you active the HDR the app crashes.
